Industrial Scientific Named a Finalist for Advanced Manufacturer of the Year and Culture Leader in Tech 50 Awards

The Pittsburgh Technology Council's Tech 50 Awards honor southwestern Pennsylvania's most successful and innovative technology companies.

PITTSBURGH, PA – 12 August 2015 – Industrial Scientific, the global leader in gas detection, is pleased to announce that they have been named a finalist in the 2015 Tech 50 Awards by the Pittsburgh Technology Council.

Industrial Scientific is a finalist in two categories this year, Innovator of the Year - Advanced Manufacturing and Culture Leader of the Year. The Advanced Manufacturing award recognizes companies and products that revolutionize the marketplace and have a positive impact on local and global communities. Industrial Scientific won the award previously in 2011 and in 2013.

Culture Leader of the Year, Tech 50’s newest award, celebrates a workplace environment focused on a shared mission and values, continuous learning, engagement, productivity, customer support, and other unique attributes.

The Council will name the winners during an awards event at the Wyndham Grand Pittsburgh Downtown on Thursday, 29 October 2015.

####

About Industrial Scientific Corporation
As the global leader in gas detection, Industrial Scientific provides gas detection products and services that keep workers safe in hazardous environments. The company’s more than 700 employees in 25 countries are committed to preserving human life, and have dedicated their careers to ending death on the job in this century. Established in 1985 and headquartered in Pittsburgh (USA), Industrial Scientific also has operations based in Arras (France), Dortmund (Germany), and Shanghai (China), and provides technical services to customers from local service centers around the world. Industrial Scientific is the parent company to Predictive Solutions Corporation (www.predictivesolutions.com). For more information, visit www.indsci.com.
