## RGX™ Gateway Receives Oman & Qatar Approvals

Industrial Scientific is pleased to announce that RGX™ Gateway has received the iCTOATAR approval for Qatar and the TRA approval for Oman. All RGX Gateways purchased for Qatar or Oman approval will ship with the following approval identification by country.

Product	Country	Certification Name	Type	Identification / Registration #
RGX	Qatar	iCTQATAR	Telecom	CRA/SM/2019/R-8322
RGX	Oman	TRA	Telecom	TRA/TA-R/8570/19

The RGX Gateway is compatible with LENS™ Wireless-enabled Ventis Pro multi-gas monitors and Radius® BZ1 Area Monitors. LENS Wireless, a peer-to-peer communication system, shares alarms and gas readings from connected instruments with the RGX Gateway. Using cell, Wi-Fi, or Ethernet, the RGX transmits real-time data to cloud-based iNet® Now live monitoring software that sends alerts to key team members within seconds. With RGX, safety managers can receive emails, SMS texts, and on-screen alerts from anywhere in the world when incidents occur.

For additional information on the Qatar or Oman approved RGX Gateway, visit our website at <http://www.indsci.com/rgx>, or contact your local Industrial Scientific representative. Contact information can be found at [www.indsci.com/offices](http://www.indsci.com/offices).

Sincerely,

Jason Kettler  
Product Manager, Instrumentation
