## Radius® BZ1 Area Monitor Receives Russia GOST EAC Approval

Industrial Scientific is pleased to announce that the Radius® BZ1 is now available in Russia and has received the GOST EAC hazardous location approval. All Radius BZ1 Area Monitors purchased for use in Russia will ship with the following approval:

Product	Country	Certification Name	Type	Identification / Registration #
Radius BZ1	Russia	GOST EAC	Hazardous location	73387-18

The Radius BZ1 Area Monitor is a rugged gas detector that connects your entire worksite. Designed to go where the work is, Radius can be deployed in seconds for emergency response scenarios or left in the field for up to 7 days on a single charge. Radius shares readings and alarms with other units and personal gas monitors through LENS® Wireless, allowing you to create a dynamic safety network that changes with the needs of your operations.

For additional information on the Russia GOST EAC approved Radius BZ1, visit our website at <http://www.indsci.com/radius>, or contact your local Industrial Scientific representative. Contact information can be found at [www.indsci.com/offices](http://www.indsci.com/offices).

Sincerely,

Jason Kettler  
Product Manager, Instrumentation
