

The company Industrial Scientific Corporation, Pittsburgh, Pennsylvania USA, declares that the following product intended for use in Explosive Atmospheres: (La société Industrial Scientific Corporation, Pittsburgh, Pennsylvania USA, atteste que le matériel neuf destiné à être utilisé en Atmosphères Explosives désigné ci-après:)

TANGO TX1**Gas Detector**

(Détecteur de gaz)

The Tango TX1 is a hand-held single gas monitor designed to continuously monitor one toxic gas. The unit samples the atmosphere in diffusion mode using two electrochemical sensors of the same type for one of four toxic gases: CO, H2S, NO2, or SO2. Power is provided by one 3.6V lithium-thionyl chloride primary cell. Readings are displayed on an LCD and the device has audible, visual, and vibrating alarms when set, user-configurable conditions are exceeded. The devices have no facilities for connection of external electrical circuits, but stored data may be retrieved via an infrared interface.

(Le Tango TX1 est un détecteur de gaz monogaz portatif conçu pour surveiller en continu un gaz toxique. L'unité préleve l'atmosphère en mode diffusion à l'aide de deux capteurs électrochimiques du même type pour l'un des quatre gaz toxiques : CO, H2S, NO2 ou SO2. L'alimentation est fournie par une pile primaire au lithium-chlorure de thionyle de 3,6 V. Les lectures sont affichées sur un écran LCD et les appareils émettent des alarmes sonores, visuelles et vibrantes lorsqu'elles sont définies, les conditions configurables par l'utilisateur sont dépassées. Les appareils ne disposent d'aucune possibilité de connexion de circuits électriques externes, mais les données stockées peuvent être récupérées via une interface infrarouge.)

Complies with the requirements of the following European Directives:
