

# 5

## REASONS to GO PRO

The **Ventis® Pro5** multi-gas monitor is the most flexible connected monitor on the market, giving you the power to connect workers anytime, anywhere – even in the most remote settings.

Flexible Sensor Options

---

Anytime, Anywhere Connectivity

---

Live Monitoring with iNet® Now

---

Asset Management with iAssign®

---

Guaranteed for Life™ Warranty

---

# TABLE of CONTENTS

# FLEXIBLE SENSOR OPTIONS

Do more with fewer instruments. With **23 sensor options**, the Ventis® Pro5 can take the place of two monitors by detecting up to five gases simultaneously.

# 2

## ANYTIME, ANYWHERE CONNECTIVITY

Automatically connect everyone from lone workers to in-plant teams with cellular, wi-fi, satellite, and peer-to-peer connectivity options so you **always have visibility** into the safety of your people.

# LIVE MONITORING

with **iNET NOW**

Know the conditions workers are experiencing on site with **real-time text and email alerts** for gas hazards, panic, and man-down situations. iNet Now's simple dashboard makes it easy to assess and respond to emergency situations in the moment for better safety outcomes.

# Simplify **ASSET MANAGEMENT** with **iASSIGN**

Reduce your fleet size by assigning users to an instrument with a tap so they can use different monitors each day. Use iAssign® to tag locations and send **site-specific messages**, set permission levels, and track data about where and when users encountered hazards.

# GUARANTEED for **LIFE WARRANTY**

Guaranteed for Life™ warranty\* and an IP68 rating for dust and water ingress ensure your instruments **stand the test of time** in a range of industrial settings. Spend less on replacement parts with a four-year warranty on select sensors (CO, H<sub>2</sub>S, O<sub>2</sub>, and LEL).

\*Warranted for as long as the instrument is supported by Industrial Scientific Corporation
