

TRANSFORM YOUR SAFETY PROGRAM WITH iNET®

SIMPLIFIED. INTELLIGENT. POWERFUL.

Get connected gas detection, fleet management, easy reporting, and real-time visibility—all in one place—with Industrial Scientific's premier software and services platform.

A Platform Built For You

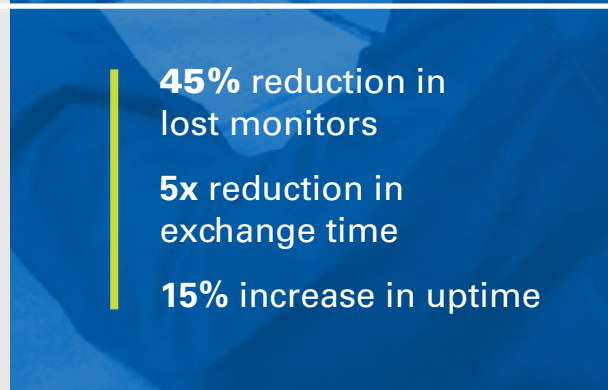

- With an **intuitive design** tailored to your role, you can easily access the data you need.
- **Effortlessly generate** compliance reports with fewer clicks, or have them automatically emailed to you.
- **Group information** the way you want, with options to aggregate site, equipment, and worker data for **corporate level reporting**.

40% reduction in report time

Reduced Costs & Downtime

- Get **personalized alerts and notifications** for overdue bump tests and calibrations.
- The fleet health tracker shows the **status of all equipment and accessories**, so you can fix out-of-compliance or faulty monitors and even locate lost equipment.
- **Simple set-up and onboarding** with commissioning of gas monitors and interactive device placement.

45% reduction in lost monitors

5x reduction in exchange time

15% increase in uptime

Improving Safety Culture, Together

- Identify **worker-centric exposure trends**, including STEL & TWA, regardless of shared instruments.
- Receive **site and worker usage alerts** to proactively increase safety behaviors.
- Monitor **worker locations in real-time** during emergencies for quick and effective responses.

25% reduction in site incidents

Based on customer averages
